WORK EXPERIENCE

E-Global Soft Solutions

Frontend Developer

10/2023 - Present | New Delhi: on-site

- Developed responsive UIs for CRM, CMS, PMT, eCommerce, and project management applications using React.js.
- Implemented JWT authentication with role-based access in the frontend.
- Automated UI processes, cutting down manual effort by more than 40%.
- Worked with designers and enhanced the UI consistency with reusable components.
- Performed code reviews and adhered to best practices of clean, maintainable code.

Pro Tech Planner

Full Stack Web Developer

01/2023 – 09/2023 | Noida: on-site

- Founded Briefsea, allowing users to list projects and agencies to bid and accept work in real-time.
- Created sophisticated features with MERN stack, which led to a 40% boost in user engagement and a 30% decrease in operational time.
- Developed REST APIs, handled MongoDB schemas, and optimized frontend-backend data exchange.

URPopular

Web Developer

02/2022 – 12/2022 | Mumbai: Remote

- Built responsive and modular React.js components and integrated UI with RESTful APIs.
- Set up a complete React-based frontend architecture and developed dynamic views using HTML and CSS.
- Developed REST APIs, handled MongoDB schemas, and optimized frontend-backend data exchange.

PROJECTS

Project Management Tool

- Created a Project Management Tool to automate task assignment, progress monitoring, chat, and collaboration among team members, enhancing overall project efficiency.
- Implemented intuitive dashboards and automated processes, minimizing manual intervention and maximizing productivity throughout departments.
